T23_T2.2_404g_EA_Draft_2020.06.26_TrackChangesActiveComments.docx

Hello Mike,

A revised draft of the section 404(g) EA is attached. I included two versions. One has edits in Track Changes, and one has all edits accepted. You requested moving past the 2018 comments, so in both versions, I deleted all comments that we had marked as resolved to clean up the file. I still have a version saved with all of the comments in case we need to refer back to it.

Please let me know if you have any questions.

Thanks,

Jess

Subject: 404G Proposal EA Comments

Jess and Hana,

EPA comments on the 404G draft are attached. I think most of them are concrete comments or asks, but some down a bit lower might need some discussion. Please let me know if you want to have a call.

There are some bits where we're discussing how/where to include the proposal ICR estimates. I would ignore those for now, the proposal ICR is still in the works.

Could you provide a clean copy alongside one with your edits for the next passback? I love Karen, but I want to move past her comments from 2018! LOL

I think we also discussed you including the example case section (not to be confused with case study!) in the next passback. Looking forward to seeing that as well.

Have a great weekend!

Mike
